

N&N 1500 Litre Twin Shaft Paddle Mixer

N&N 1500 Litre Twin Shaft Paddle Mixer

At Total Food Machines, we are proud to offer the full range of N&N twin shaft paddle mixers, including the **N&N 1500 Litre Twin Shaft Paddle Mixer**, a versatile and reliable solution for the food processing industry.

Ideal for a Wide Range of Applications

The N&N 1500 Litre Mixer is designed for mixing a broad variety of food products across industries such as meat, poultry, fish, vegetables, dairy, cereals, confectionery, pet food, and sandwich fillings. Its advanced design and performance make it the preferred choice for demanding mixing processes.

Superior Mixing Performance

The N&N 1500 features a unique paddle shaft arrangement, with one shaft positioned slightly higher than the other. This configuration ensures a more efficient and uniform mix, enhancing product consistency and quality. Additionally, the mixer provides a gentle mixing action, preserving the integrity of the product and minimizing particulate destruction, which helps maintain the original texture and quality of your ingredients.

Easy Maintenance & Customisation

The N&N mixer is equipped with the renowned **Easy Clean System**, which allows for hassle-free paddle removal for thorough cleaning, reducing the risk of back strain during maintenance. For added convenience, the machine can be supplied with options such as a **Tote Bin Lifter**, **PLC Control**, and other custom features tailored to your specific requirements.

Comprehensive Range of Sizes

In addition to the 1500 Litre model, we offer N&N mixers in sizes ranging from **180 litres to 3600 litres**, ensuring a solution for every scale of operation.

For more information or to discuss your mixing needs, please contact our sales team at **02890 994 202** or email us at sales@totalfoodmachines.com. We're here to help you find the perfect mixer for you
