

N&N 450 Litre Twin Shaft Paddle Mixer

N&N 450 Litre Twin Shaft Paddle Mixer

Total Food Machines is proud to offer the full range of N&N Twin Shaft Paddle Mixers, including the highly versatile N&N 450 Litre model, designed to meet the rigorous demands of the food processing industry.

The N&N 450 Litre Twin Shaft Paddle Mixer is perfect for mixing a wide variety of food products across multiple sectors, including meat, poultry, fish, vegetables, dairy, cereals, confectionery, pet food, and sandwich fillings.

Key Features:

- **Efficient Mixing Action:** The unique paddle shaft design, with one shaft slightly higher than the other, ensures a more thorough and uniform mix.
- **Gentle Mixing Process:** The machine provides a gentle yet effective mixing action that minimizes particulate breakdown, preserving product integrity and maintaining its original quality.
- **Easy Clean System:** For effortless maintenance, the N&N 450 can be equipped with the renowned "Easy Clean" system, allowing the paddles to be released for hassle-free cleaning without physical strain.
- **Customisable Options:** Additional features, including a Tote Bin Lifter, PLC control, and other tailored options, are available upon request to suit your specific needs.

Capacity: 450 Litres

Whether you require a small-scale mixer for smaller batches or a high-capacity unit, Total Food Machines offers N&N models ranging from 180 to 3600 litres. Our experienced sales team is here to assist you in selecting the ideal solution for your mixing requirements.
