

Indexing Ready Meals Conveyor

Indexing Conveyor.

Indexing conveyor designs combine speed and accuracy to enhance your unique indexing practices. The machine achieves these results through the creation of precise, custom automation for your sorting, counting, and spacing processes.

The conveyor belt breaks production lines into defined steps to achieve a variety of custom drive and control options for both high and low volume manufacturing environments.

Previously used as ready meal line.

Variable speed motor.

Belt Width 300mm

Length 4700mm

Height 900mm adjustable

Attachments for Depositor Heads
