

N&N Nadratowski 3600 Litre Twin Shaft Vacuum Paddle Mixer

N&N 3600 Litre Twin Shaft Vacuum Paddle Mixer

The N&N 3600 Litre Twin Shaft Vacuum Paddle Mixer is designed for applications requiring air evacuation prior to emulsifying, stuffing, or forming processes. Its robust mixing action, coupled with high peripheral wing speed, ensures efficient protein extraction and uniform distribution of spices, additives, and liquids.

Key Features:

- **Efficient Mixing & Distribution:** Ensures excellent distribution and absorption of liquids, spices, and additives, delivering consistent results across a wide range of products.
- **Rapid Defrosting:** Delivers fast and effective defrosting, minimizing downtime and improving process efficiency.
- **Programmable Operation:** Easily programmable for consistent mixing results, ideal for a variety of product formulations.
- **Versatile Pre-Blender:** Suitable for emulsions and other complex blends, offering flexibility in food processing applications.
- **Easy to Clean:** Designed for quick and thorough cleaning to meet stringent hygiene standards.
- **Side Discharge:** Direct discharge into two 200L tote bins for seamless integration into your production line.
- **Pneumatic Lid Operation:** Easy-to-operate pneumatic system for opening and closing the lid with minimal effort.
- **Customizable Options:** Available with or without a tote bin lifter for added convenience.

Technical Specifications:

- **Total Capacity:** 3600 L
- **Max Filling Capacity:** 2800 L
- **Installed Power:** 41.0 kW
- **Vacuum Pump:** BUSCH 120m³/h
- **Shaft Rotation Speed:** 2 - 20 RPM (variable speed)
- **Required Pressure:** 6 bar
- **Dimensions (L/W/H):** 4060/2000/2600 mm
- **Height with Lid Up:** 3900 mm
- **Weight:** 5550 kg

This high-performance mixer is engineered to enhance efficiency and consistency in your food processing operations.
