

N&N Nadratowski 1500 Litre Vacuum Mixer with Tilttable Hopper

N&N 1500 Litre Vacuum Mixer with Tilttable Hopper

Model: N&N Mix-1500ZV

The **N&N 1500 Litre Vacuum Mixer** is designed for the efficient and thorough mixing of thick and heavy products, such as kebab meat, dough, and butter-based ingredients. Perfect for high-demand food production environments, this versatile machine is engineered for reliability and performance.

Key Features:

- **Programmable Control:** Customizable mixing programs tailored to your specific recipes, offering flexibility and consistency.
- **User-Friendly Touchscreen:** Equipped with a Mitsubishi colour touchscreen control panel for intuitive, easy operation.
- **High-Performance Mixing:** Features a high peripheral wing speed for effective and uniform mixing, ensuring excellent distribution and absorption of liquids, spices, and additives.
- **Vacuum Functionality:** The vacuum process enhances curing, protein extraction, and enables precise control of pre-mix density, while air evacuation occurs prior to stuffing formation.
- **Efficient Mixing & Discharge:** Provides excellent volume utilization with minimal mixing and discharge times.
- **Hydraulic Lid:** Automatic hydraulic opening and closing of the lid for ease of use.
- **Versatile Discharge Options:** Can be supplied with a tote bin lifter and discharges into 2 x 200 L stainless steel tote bins.
- **Robust Construction:** Built for durability, easy to clean, and designed to withstand the rigors of intensive food production.

Technical Specifications:

- **Total Capacity:** 1500 Litres
- **Maximum Fill:** 1000 Litres
- **Installed Power:** 35 kW
- **Vacuum Pump:** BUSCH 63 m³/h
- **Shaft Speed:** 3-28 rpm (Variable Speed)
- **Dimensions (L/W/H):** 3300 x 1600 x 2300 mm
- **Height with Lid Open:** 3780 mm
- **Weight:** 4400 kg

Additional Features:

- **Z-Arm Paddles:** For superior mixing performance.
- **Tilting Hopper:** Facilitates easy loading and unloading.
- **Customizable:** Available with or without a tote bin loader, tailored to meet your production needs.
- **Complete Range:** Available in various sizes including 300L, 500L, and 1500L configurations.
