

Ready Meal Conveyor Variable Speed Set Up For Depositors

Ready Meal Conveyors

Our Ready Meal Conveyors are essential for optimising production and streamlining operations within the food industry.

Designed to increase efficiency and reduce labour costs, these conveyors facilitate the seamless movement of ready meals throughout your food facility.

At Total Food Machines, we offer a comprehensive range of high-quality stainless steel conveyor systems, tailored to meet the specific needs of the ready meal sector.

Whether you require bespoke designs or standard solutions, we provide fully customizable options that are built to your exact specifications.

Key Features of Our Ready Meal Conveyors:

- Configurable to accommodate 3-5 depositors and tray denesters
- Available in various sizes, with customizable widths and lengths
- Compatible with most inline tray sealers and tray sleeves
- Equipped with a variable speed controller for optimal efficiency

- Easy to clean for maximum hygiene standards

Our conveyors are perfect for handling a wide variety of ready-to-eat meals, including lasagne, curries, spaghetti bolognese, fish pies, meat, poultry, fish, vegetables, and pre-packaged frozen or microwaveable meals.

Whether individual portions or family-sized servings, our systems ensure smooth and reliable meal processing.
