

Rice Pasta Depositor

W.E. Rice Pasta Depositor – Advanced Volumetric Filling Solution

The **W.E. Rice Pasta Depositor** is an innovative auger-fed volumetric filling machine designed for precise dispensing of a wide variety of dry and semi-dry products. Ideal for rice, pasta, meals, salads, vegetables, and more, this machine ensures exceptional accuracy, speed, and ease of use.

Built with efficiency and hygiene in mind, the Rice Pasta Depositor offers a seamless user experience, with a design focused on speed, accurate deposits, easy cleaning, and minimal maintenance.

Key Features:

- **Versatile Capacity:** Available in 1, 2, 3, and 4-lane models, with a throughput of up to 120 fills per minute.
- **Precise Weight Control:** Capable of dispensing up to 1000 grams per cycle, with multiple fill options for greater flexibility.
- **Food-Grade Construction:** Made from stainless steel and other food-safe materials, ensuring durability and compliance with industry standards.
- **Advanced Control System:** Equipped with a Mitsubishi Touch Screen HMI, featuring a recipe menu for easy setup and adjustments.
- **Flexible Operation:** Can be operated via foot pedal or integrated into automated filling systems, including indexing or continuous conveyors.
- **Efficient Design:** Motor-driven, auger-fed bulk hopper ensures fast recharging and precise dispensing.
- **Adjustable Height:** The framework can be adjusted to accommodate various conveyor heights, enhancing flexibility in your production line.
- **Mobility & Safety:** Mounted on swivel/locking castors for easy movement, with emergency stop switches and interlocked hinged access doors for enhanced safety.
- **Easy Cleaning:** Minimal parts in contact with food simplify cleaning, while the pot mask facility helps prevent product spillage.

Optional Features:

- Conveyor latching for enhanced control.
- Hopper agitator for handling less flowable products.
- Configurable with 1, 2, 3, or 4 outlets to suit your production needs.
