

Coleslaw Depositor

Coleslaw Depositor

At Total Food Machines, we offer a comprehensive range of depositors designed specifically for coleslaw production. Whether you require a single off-line machine or a complete inline system for filling trays or pots, we have the solution to meet your needs. Additionally, we provide equipment for processing dry slaw.

- **Filler displacement:** Various sizes
 - **Hopper capacity:** 60 litres (standard)
 - **Rise and Fall Stand:** Adjustable for optimal performance
- We supply a wide variety of cut-off nozzles to ensure clean, precise, and repeatable product presentation.

Our depositors are versatile and can also be used for other wet salads and a variety of products, including those with particulates up to 30mm. These machines are capable of handling both hot and cold filling applications.

Typical Applications Include:

- Soups
- Coleslaw
- Sauces
- Pie mix
- And many more

Optional Features:

- Automated sensing systems
- Positive porting for pressure-fed systems
- Assisted hopper feed system for non-flowable products

In addition to our new depositors, we also offer pre-owned machines from leading manufacturers, including Turbo, Apple, and Unifiller, specifically for coleslaw production.

For more information, please contact Total Food Machines at 02890 994 202 or email us at sales@totalfoodmachines.com.
