

Doypack Pouch Filling Machine

Doypack Pouch Filling Machines – Advanced Stand-Up Pouch Solutions

Total Food Machines presents a comprehensive range of state-of-the-art Doypack Pouch Filling Machines, specifically engineered for the efficient filling and sealing of pre-made stand-up pouches (Doypacks). Designed for a wide range of applications, these machines excel in filling liquids, sauces, juices, detergents, pastes, and solid products with unmatched precision and speed.

Doypack pouches are highly regarded for their ability to stand upright, ensuring enhanced shelf visibility in retail environments. These flexible pouches are ideal for a diverse range of products, including food, beverages, pet food, and personal care items.

Key Features & Benefits:

Versatile Filling Capabilities:

Our Doypack machines are engineered to accommodate various pouch shapes and sizes, automatically picking up, opening, filling, and sealing both liquid and solid products with exceptional accuracy.

Enhanced Shelf Visibility:

The unique gusseted bottom of stand-up pouches ensures superior stability and visibility on store shelves, making them an ideal packaging solution for consumer-facing products.

Customisable Packaging Options:

Whether your product requires a spout, valve, zipper closure, or tear notch, our machines offer a wide range of flexible packaging options to meet your specific needs.

Eco-Friendly Packaging:

Our machines are compatible with a variety of materials, including recyclable and sustainable options, helping you reduce your environmental footprint while maintaining packaging functionality.

Available Doypack Styles:

- **Doypack with Spout:** Ideal for liquid or semi-liquid products.
- **Doypack with Valve:** Perfect for gas-filled or vacuum-sealed products.
- **Doypack with Punched Handle:** Facilitates easy carrying and handling.
- **Doypack with Square Bottom:** Provides added stability for optimal shelf presentation.
- **Doypack with Tear Notch:** Offers convenience for easy opening.
- **Doypack with Zipper/Grip Seal:** Ensures re-sealing, keeping products fresh and convenient for the consumer.

Built for Efficiency & Durability:

Advanced Technology:

Featuring Siemens PLC controls, IP65-rated protection, and durable 316 stainless steel construction, our Doypack machines ensure long-term reliability and high performance.

European Components:

All components are sourced from trusted European suppliers, guaranteeing top-tier quality, precision, and longevity.

Versatile for Hot & Cold Products:

Designed to handle both hot and cold products, our machines provide flexible solutions across a variety of industries, including food, beverages, detergents, and more.
