

Vertical Form Fill Seal Machines

Vertical Form Fill Seal Machines (VFFS) – Tailored Packaging Solutions

At **Total Food Machines**, we offer a comprehensive range of Vertical Form Fill Seal Machines (VFFS), designed to meet diverse packaging needs. Our solutions include both solid and liquid filling capabilities, with customizable features to suit your production requirements.

Key Features:

- **Versatile Jaw Sealing Sizes** – For a wide range of bag sizes and applications.
- **Gas Flush Options** – Available with or without gas for modified atmosphere packaging (MAP).
- **Solid and Liquid Filling** – Capable of handling various product types.
- **Compact Design** – Space-saving and ideal for facilities with height limitations.
- **User-Friendly Setup** – Simple and quick configuration to minimize downtime.
- **Mitsubishi PLC Control** – Advanced control system for precise operation.
- **Integrated Weighing and Packaging** – Optional integrated weighing system, all controlled via a single HMI for easy operation.
- **Custom Solutions** – Tailored configurations based on specific customer needs.

Main Configuration:

- **Frame Material:** SUS304 Stainless Steel for durability and hygiene.
- **Max Film Width:** 420mm, suitable for a variety of packaging sizes.
- **Max Speed:** 100 bags per minute (empty bags).
- **Packaging Material:** Standard heat-sealable composite films.
- **Electrical Components:** MITSUBISHI PLC for precise control. **Panasonic Servo System** (2 sets) for smooth and reliable performance. **AIRTAC Pneumatic Parts** for efficient operation. **Banner Photoelectric Sensor** for accurate positioning. **NANYUN Pneumatic Hot Stamp Printer** for high-quality printing.
- **Free Former Included:** Film width (420mm) with a double clip seal.
- **Touch Screen:** 10" colour display for easy, intuitive control.

Why Choose Total Food Machines?

- **Efficiency & Speed:** Our machines offer high-speed packaging without compromising on accuracy or product quality.
- **Customisation:** We provide solutions tailored to your specific needs, ensuring maximum efficiency in your production line.
- **Reliability:** Built with top-tier components for long-lasting performance and minimal maintenance.
