

VFFS Bag Sealer with Liquid Filling Depositor

VFFS Bag Sealer with Liquid Filling Depositor

The VFFS (Vertical Form Fill Seal) Bag Sealer with Integrated Liquid Filling Depositor offers a versatile, reliable solution for packaging liquids and semi-solids. Designed to accommodate both hot and cold filling, this system is ideal for a wide range of applications, including water, sauces, gravies, dressings, and more.

Our advanced liquid depositing technology ensures precise, consistent doses of liquids and suspended semi-solids, making it the perfect choice for high-volume production environments. The depositors are capable of accurately dosing from 5ml to 5,300ml, with a variance of less than 1%, guaranteeing repeatability and minimal waste.

Key Features & Benefits:

- **Versatile Filling Options:** Suitable for hot or cold fills, handling a wide variety of liquids, including oils, vinegars, soups, sauces, batters, peanut butter, and jams.
- **Precision Dosing:** Accurately dispenses liquids and semi-solids with a typical variance of less than 1%.
- **Fully Pneumatic Operation:** No electrical supply required in wet areas, ensuring safer and more reliable performance.
- **User-Friendly Design:** Quick dismantling and reassembly for easy cleaning and maintenance. Fully adjustable speed control and simple volume adjustments to meet production needs.
- **Durable & Hygienic Construction:** Built with stainless steel and food-grade materials, ensuring durability and compliance with industry standards.
- **Compatible with Foot Pedal or Air Signal Control:** Includes readily available ports for external control options, such as foot pedals or air signals.

Standard Specifications:

- **316 Stainless Steel Construction** for enhanced durability and corrosion resistance.
- **Siemens or Mitsubishi PLC** with European components for reliable, long-term performance.
- Components from trusted brands such as **Airtac**, **Danfoss**, and **Schneider** ensure high-quality operation.

Applications: Ideal for a wide range of food processing industries, including packaging for:

- Dressings (oil and vinegar-based)
- Soups and sauces
- Yogurts and batters
- Peanut butter, jam, and more
