

Rice Pasta Volumetric Depositor

W.E. Rice Pasta Depositor - Advanced Depositing Solution

The W.E. Rice Pasta Depositor is an advanced auger-fed, volumetric filling machine designed to deliver precise and efficient dispensing of both dry and semi-dry products. Ideal for applications such as rice, pasta meals, salads, vegetables, and more, this machine is engineered with speed, accuracy, and ease of use in mind.

Available in 1, 2, 3, or 4-lane models, the machine achieves a throughput of up to 120 fills per minute and can accommodate a filling weight range of up to 1000 grams per cycle (multiple fills available).

Key Features:

- **Durable Construction:** Built with stainless steel and food-grade materials for hygiene and longevity.
- **User-Friendly Interface:** Equipped with a Mitsubishi Touch Screen HMI and a recipe menu selection for easy operation.
- **Flexible Operation:** Can be operated with a foot pedal or automated filling control for indexing or continuous conveyor systems.
- **High Performance:** Motor-driven, auger-fed system with a bulk hopper for fast and accurate recharging.
- **Adjustable Framework:** Height-adjustable to accommodate various conveyor heights.
- **Mobility and Safety:** Mounted on swivel/locking castors for easy movement, with both front and rear-mounted emergency stop switches for safety. Laser-cut guards and interlocked hinged access doors provide additional security.
- **Ease of Maintenance:** Minimal contact points with food for quick and easy cleaning. Adjustable weight control with a reference scale ensures precision.

Optional Features:

- Conveyor latching
- Hopper agitator for less flowable products
- Multiple outlet options (1, 2, 3, or 4)
