

Linear Weigher for Powders

Linear Weighers for Powders

At Total Food Machines, we offer an extensive range of **Linear Weighers**, designed to meet the precise needs of the packaging industry. Whether you require a **Single Head** or a **Multihead Linear Weigher**, we provide a variety of solutions to suit your production requirements.

- **PLC Control:** Available with Siemens or Mitsubishi PLC control systems for seamless operation.
- **High-Quality Components:** All machines are built with premium European components for reliability and durability.
- **Ease of Use:** Our linear weighers are simple and easy to set up, ensuring minimal downtime and efficient operation.

A **linear weigher**, also known as a **linear weighing machine** or **linear weighing scale**, is a specialised tool used to accurately measure and dispense precise quantities of loose, granular products. It is ideal for handling a wide range of items, including vegetables, grains, nuts, snacks, coffee, and other similar products.

For more information, please contact **Total Food Machines** at 02890 994 202 or email us at sales@totalfoodmachines.com.
