

Fruit and Vegetable Production Line Weighing And Packaging Machine

Multihead Weighing and Packaging Machine Filling Production Line for Fruits and Vegetables

Our **Multihead Weighing and Packaging Machine Production Line** is designed for high-precision filling and packaging of fruits, vegetables, and other food products. This complete system is ideal for filling tubs or containers with products such as tomatoes, soft fruits, nuts, and more.

Key Features:

- **Customisable Solutions:** The production line can be tailored to meet specific customer requirements, including throughput capacities and available space.
- **Efficient Sorting and Packaging:** This system is optimized for sorting, lifting, weighing, boxing, and capping a wide variety of products, such as cherries, cherry tomatoes, and other delicate items.
- **Fully Automated Line:** The system can be equipped with automatic box unloading, as well as end-of-line labelling and coding, offering a seamless, fully automated production process.

The Production Line Includes:

1. **Vibrating Feeder:** Gently feeds products onto the next stage, minimizing damage or bruising.
2. **Inclined Conveyor:** Elevates products smoothly to the Multihead Weigher for accurate measurement.
3. **Multihead Weigher:** Offers high precision weighing with a tolerance of $\pm 0.5g$, ensuring accurate portioning of products.
4. **Gantry:** Designed to handle the products efficiently during the packaging process.
5. **Linear Double-Station Filling and Capping Conveyor:** Ideal for filling and capping plastic tubs or containers. This system ensures smooth and precise operations for both filling and capping.
6. **Lock Box System:** Provides a secure closure for packaging, ensuring product integrity and hygiene.

Benefits:

- **Precision:** Our Multihead Weigher ensures high accuracy, guaranteeing consistent product weight for each package.
- **Gentle Handling:** With features like the Linear Vibrating Screen and Inclined Conveyor, the system ensures minimal product damage, even for delicate items like soft fruits and tomatoes.
- **Complete Automation:** From sorting to final labelling, this production line offers a fully integrated solution that minimizes manual intervention, reduces labour costs, and enhances production efficiency.
