

Petfood Weighing Packing Line

Petfood Weighing Packing Line

Introducing our specialised pet food packaging solutions, designed for the efficient filling, bagging, wrapping, and container filling of various pet food products, including both dry and wet pet food, kibble, sticks, and extruded treats.

Our systems are built to handle a diverse range of pet products with precision and ease.

Our weighing and bagging machines are user-friendly, easy to clean, and incorporate advanced Siemens PLC technology and high-quality European components, ensuring reliable performance and long-lasting durability.

We offer customizable production lines capable of handling products ranging from 500 grams to 20 kg, catering to businesses of all sizes. Our versatile packaging options include gusseted or flat bags, with materials such as coated paper, PE, PET, aluminized PE, and more.

Additionally, we offer specialised features like bags with carrying handles, lateral carrying handles, easy-peel openings, front or top zippers, hooded bags, stand-up pouches, single-lip bags, and Quattro-seal bags.

Our automated lines are engineered to efficiently fill and seal a variety of pet food products into bulk bags, doy-style, and quad-style bags, with or without zipper closures, ensuring the perfect packaging solution for your unique needs.

Let us help you streamline your packaging process with top-of-the-line equipment designed to deliver superior results. Call Total Food Machines on 02890 994 202 or email sales@totalfoodmachines.com
