

Stainless Steel Pallet Trucks

Stainless Steel Pallet Trucks

Hand pallet truck is suitable for moving pallets dolavs around food factories especially for places where hygiene and health requirements are particularly stringent.

The pallet truck is made of stainless steel and is therefore resistant to damp or aggressive environments and can be easily cleaned.

The lifting and lowering of the load is controlled by an unlocking handle, which allows the operator to increase the lowering speed as required. The stainless steel pallet truck has a stainless steel frame, levers and pump and the hydraulic unit, pressure plate, tie rods and wheel chocks are hot dip galvanised and coated.

Specifications

- Fork length: 1130mm
- Weight: 69kg
