

Kolbe Bandsaws

Total Food Machines supplies a complete range of Kolbe Meat Bandsaws, including the K380RS, K430S, K440RS and heavy-duty K800 models. Designed for butchers and industrial food processors, these German-engineered bandsaws deliver clean, accurate cutting across fresh and frozen meat, bone-in products, poultry, fish, carcasses and frozen blocks. Choose from compact, fixed-table, sliding-table

and production-line configurations with maximum cutting capacities from 357–800 mm. High-speed precision blades provide consistent portions, improved product presentation and reduced cutting waste. Robust stainless-steel construction ensures dependable performance, durability and hygienic operation in demanding food-production environments. Contact Total Food Machines today to discuss the ideal Kolbe Meat Bandsaw for your products, capacity and

factory requirements.

Kolbe K380RS Meat

Bandsaw

Kolbe K380RS Meat

Bandsaw is a new model to fill the gap between K330S and K430RS. This smaller bandsaw is ideal for busy butchers or a small meat processing plant taking up less space than Kolbe's larger bandsaws.

Kolbe - K380RS Meat

Bandsaw - Blade Length - 3070mm

Kolbe - K380RS Meat

Bandsaw - Blade Speed- 28 m/s

Kolbe - K380RS Meat

Bandsaw - Max Cutting
Thickness - 357mm

Kolbe - K380RS Meat
Bandsaw - Motor - 2.5kW

Kolbe - K380RS Meat
Bandsaw - Weight - 270kg

Kolbe K430S Meat Bandsaw

The **Kolbe K430S Meat Bandsaw** is a high-performance machine designed to meet the demands of industrial environments such as meat processing plants and large butcheries. This model comes standard with a fixed table and the option of a half-sliding table, providing versatility for various cutting

tasks.

Operating at an impressive speed of 32 meters per second, the **K430S** features an exceptionally thin blade that ensures precise cuts with minimal waste. Key specifications include:

- . **Blade Length:** 3370mm

- . **Blade Speed:** 32 m/s

- . **Maximum Cutting**

- Thickness:** 410mm

- . **Motor:** 2.5kW

- . **Weight:** 305kg

Kolbe K440RS Meat Bandsaw

The Kolbe K440RS Meat Bandsaw is a robust, floor-standing machine designed for precision and efficiency

in high-demand food processing environments. Constructed from durable stainless steel, it is equipped with a sliding table mounted on ball bearings, ensuring smooth, high-quality portioning and dissection of meat products.

Key Specifications:

- . Blade Length:** 3370mm
- . Blade Speed:** 32 m/s
- . Maximum Cutting Thickness:** 410mm
- . Motor Power:** 2.5kW
- . Weight:** 305kg

Kolbe K800 Meat Bandsaw

Kolbe K800 Meat Bandsaw is the largest in the Kolbe

range and made from high quality stainless steel. Available in right and left handed versions and rigged with swivel/sliding doors and fixed or roller bed for the integration in the processing line.

The K800 Bandsaw provides a clean and exact cut by using narrow and accurate blade guides with a back guide roller.

Kolbe - K800 Meat Bandsaw - Blade Length - 4430mm

Kolbe - K800 Meat Bandsaw - Blade Speed- 32 m/s

Kolbe - K800 Meat Bandsaw - Cutting Thickness - 800mm

Kolbe - K800 Meat Bandsaw - Motor - 4kW

Kolbe - K800 Meat Bandsaw - Weight - 690kg
