

MetalBud Nowicki Bowlcutters

Total Food Machines supplies the complete range of Metalbud Nowicki Bowlcutters for cutting, mixing, chopping and emulsifying food products.

Available capacities include the KN60, KN90, KN125, KN200, KN330, KN550 and heavy-duty KN750 Typhoon.

The smaller KN60, KN90 and KN125 models provide compact, flexible solutions for butchers and small-to-medium food processors.

The KN200 and KN330 bowlcutters deliver increased production capacity, programmable control and optional automated handling.

For high-volume industrial processing, the KN550 and KN750 offer powerful cutting performance, hydraulic loading and unloading, and vacuum-processing options.

Metalbud Nowicki Bowlcutters process sausage meat, salami, pâté, poultry, fish, cheese, vegetable purées, homogenised products and pet food.

High-speed knife systems and temperature monitoring provide consistent results—from coarse chopping to the finest emulsions.

Hygienic stainless-steel construction, polished contact surfaces and easy-clean designs help reduce downtime and maintain food-safety standards.

Contact Total Food Machines today to discuss the ideal Metalbud Nowicki Bowlcutter capacity and configuration for your production requirements on 02890 994 202 or email sales@totalfoodmachines.com
