

## Portable Tote Bin Lifters

Portable tote bin lifters provide a safe and efficient way to lift and tip standard Eurobins into mixers, tumblers, cooking vessels and other food-processing equipment.

The range includes compact swing tippers for lower-level loading and mobile column lifters for applications requiring greater discharge heights. Stainless-steel construction provides excellent durability, hygiene and easy cleaning, while the mobile design allows one lifter to serve several machines.

Available in different lifting heights and configurations to suit your production requirements, these systems reduce manual handling, improve operator safety and help maintain efficient product flow.

Call +44 (0) 2890 994 202 or email [sales@totalfoodmachines.com](mailto:sales@totalfoodmachines.com) to discuss your requirements.
